- (j) No candidate or group of candidates shall use the logo or name of another electoral ticket, which has been duly registered.
- (k) No candidate or group of candidates shall use a logo that breaches any copyright or trademark legislation.
- (l) In the case of competing claims to the same electoral ticket name, the Returning Officer shall decide which team, if any, may use that name. The time at which applications for the name were made shall not be used as a sole determinant, although it may be included as an element in the exercise of this discretion.
- (m) To establish a claim to a name for the purposes of registration written permission of the “contact person” who last used the name must be given in writing unless the name was last used in greater than three (3) years prior to the elections.
- (n) All campaign material produced by a ticket must display the membership number of the ticket contact person.
- (o) Should an electoral ticket be found to have less than two (2) candidates after the validity of nominations is determined, then the remaining candidates, if any, shall be placed on the ballot as ungrouped candidates.

11.19 Election to fill one position only

If a ballot has been held for the purpose of filling one (1) position, the result of the ballot must be determined in accordance with this section.

- (a) Informal ballot papers to be rejected
 - (i) The Returning Officer must reject any informal ballot papers and count the formal ballot papers.
 - (ii) A reference in any other clause of this section to a ballot paper is taken to be a reference to a formal ballot paper, and
 - (iii) A reference to a vote is taken to be a reference to a vote in a formal ballot paper.
- (b) Candidate with absolute majority of votes elected
 - (i) The Returning Officer must count the number of first preference votes for each candidate.
 - (ii) The Returning Officer must declare elected the candidate who has received the largest number of first preference votes, if that number constitutes an absolute majority of votes.
- (c) Procedure if no candidate has absolute majority of votes
 - (i) If no candidate has received an absolute majority of first preference votes, the candidate who has received the fewest first preference votes must be excluded and each of the ballot papers counted to that candidate must be counted to the continuing candidate next in order of the voters' preference.

- (ii) The Returning Officer must declare elected any candidate who, on completion of the count under subclause (i), has received an absolute majority of votes.
- (iii) If two (2) or more candidates have an equal number of votes at the time that it is necessary to exclude one (1) of them, the candidate who had the lesser votes at the previous stage(s) of counting, where candidates had differing numbers of votes shall be excluded. If, using this method, the Returning Officer is unable to exclude a candidate, the candidate to be excluded is to be determined as follows:
 - (A) The names of the candidates concerned must be written on separate and similar slips of paper;
 - (B) The slips must be folded so as to prevent identification and mixed and drawn at random;
 - (C) The candidate whose name is first drawn must be excluded;
 - (D) Process to continue until candidate elected.
- (d) The process of excluding the candidate who has the fewest first preference votes and counting each of the ballot papers counted to that candidate to the continuing candidate next in order of the voters' preference must be continued until:
 - (i) One (1) continuing candidate has an absolute majority of votes, in which case the Returning Officer must declare that candidate elected; or
 - (ii) There are only two (2) continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes must be declared elected, even if the number of votes is below an absolute majority of votes; or
 - (iii) There are only two (2) continuing candidates who have an equal number of votes, in which case the candidate who had the more votes at the previous stage(s) of counting, where candidates had differing numbers of votes, shall be declared elected. If, using this method, the continuing candidates still have an equal number of votes, the candidate elected must be determined as follows:
 - (A) The names of the candidates concerned must be written on separate and similar slips of paper;
 - (B) The slips must be folded so as to prevent identification and mixed and drawn at random;
 - (C) The candidate whose name is first drawn is elected.

11.20 Election to fill more than one position

- (a) If a ballot has been held for the purpose of filling more than one (1) position, the result of the ballot must be determined in accordance with this section.
- (b) Informal ballot papers to be rejected
 - (i) The Returning Officer must reject any informal ballot papers;
 - (ii) A reference in any other clause of this section to a ballot paper is taken to be a reference to a formal ballot paper, and a reference to a vote is taken to be a reference to a vote in a formal ballot paper;
- (c) Determination of quota
 - (i) The Returning Officer must determine a quota by;
 - (A) Counting the number of first preference votes;

- (B) Dividing the total number of those votes by one (1) more than the number of candidates required to be elected; and
 - (C) Increasing the quotient so obtained (disregarding any remainder) by one (1).
- (d) Candidate who meets or exceeds quota elected
 - (i) The first preference votes for each candidate must be counted;
 - (ii) The Returning Officer must declare elected each candidate who has received a number of first preference votes that is equal to or greater than the quota.
- (e) Procedure if further position to be filled
 - (i) If any further position remains to be filled, the surplus votes of each elected candidate are to be transferred to the continuing candidates as follows:
 - (A) The transfer value of the surplus votes must be ascertained by dividing the number of surplus votes of the elected candidate by the total number of votes received by that candidate less the number of ballots which do not indicate a further preference;
 - (B) The total number of ballot papers of the elected candidate showing the next available preference for a particular continuing candidate must be multiplied by the transfer value;
 - (C) The number so obtained (to two (2) decimal places) must be added to the number of first preference votes of the particular continuing candidate;
 - (D) All those ballot papers must be transferred to the particular continuing candidate.
 - (ii) The Returning Officer must declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.
- (f) Procedure if insufficient candidates have reached quota
 - (i) If, after the counting of first preference votes or the transfer of surplus votes (if any) of elected candidates, no candidate has (or fewer than the number of candidates required to be elected have) received a number of votes equal to or greater than the quota, the candidate who has the fewest total allocated votes – being the sum of first preference votes plus the value of transferred votes – must be excluded and the count is to proceed in accordance with this clause.
 - (ii) All ballot papers showing a first preference vote for an excluded candidate and the next available preference for a particular continuing candidate must be transferred, each ballot paper at a transfer value of 1, to the particular continuing candidate and added to the number of votes of the particular continuing candidate.
 - (iii) Any ballot papers obtained by an excluded candidate by means of a transfer to that candidate must be transferred (beginning with the ballot papers received by that candidate at the highest transfer value and ending with the ballot papers received at the lowest transfer value) as follows:
 - (A) The total number of ballot papers received by the excluded candidate at a particular transfer value from a particular candidate and showing the next available preference for a particular continuing candidate must be multiplied by that transfer value,
 - (B) The number so obtained (to two (2) decimal places) must be added to the number of votes of the particular continuing candidate,
 - (C) All those ballot papers must be transferred to the particular continuing candidate.
- (g) The Returning Officer must declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.
 - (i) However, the surplus votes of the candidate so elected must not be transferred until all the ballot papers of the excluded candidate have been transferred.

- (h) No transfer of surplus votes or ballot papers to continuing candidate who reaches or exceeds quota. If a continuing candidate has received a number of votes equal to or greater than the quota on the completion of the transfer of:
 - (i) The surplus votes and ballot papers of an elected candidate; or
 - (ii) The ballot papers of an excluded candidate,
 - (iii) No surplus votes or ballot papers of any other candidate are to be transferred to the candidate so elected.
- (i) Procedures to continue until positions filled
 - (i) The procedure of transferring to the continuing candidates the surplus votes of elected candidates, and the procedure of excluding the candidates with the fewest first preference votes, must continue in accordance with this section until:
 - (ii) The number of continuing candidates is equal to the number of positions remaining to be filled, in which case the Returning Officer must declare those candidates elected, or
 - (iii) There is only one (1) position remaining to be filled and only two (2) continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes must be declared elected, even if the number of votes is below the quota, or
 - (iv) There is only one (1) position remaining to be filled and only two (2) continuing candidates who have an equal number of votes, in which case the candidate who had the more votes at the previous stage(s) of counting, where candidates had differing numbers of votes, must be declared elected. If, using this method, the continuing candidates still have an equal number of votes, the candidate elected must be determined as follows:
 - (A) The names of the candidates concerned must be written on separate and similar slips of paper,
 - (B) The slips must be folded so as to prevent identification and mixed and drawn at random,
 - (C) The candidate whose name is first drawn is elected.
 - (j) The exception to the above is the election of Board Directors:
 - (i) At the conclusion of the vote count, the Returning Officer must declare elected the two (2) highest ranking women candidates. The remaining two (2) unrestricted positions are then to be filled in order of rank.
