- (h) The edited statements, and a copy of any photograph supplied, must be made available to eligible voters.

- (j) The Returning Officer must immediately submit the rejected nomination and any supporting details to the Board for consideration when rejecting a nomination under section 10.10 (i) (v) of these Regulations. The Board, acting in good faith, will determine, by ordinary resolution, whether the nomination will be accepted or rejected. The decision of the Board will be final.
- (k) Persons nominated who have had their nomination paper rejected for reasons other than those included in clause 10.10 (i) (iv) and 10.10 (i) (v), may resubmit an application but only within 48 hours from

notification from the Returning Officer to correct any errors or omissions that resulted in the rejection – this process will only be afforded to persons on one (1) occasion.

- (l) No candidate may nominate for more than one (1) student body, unless the National Union of Students Inc is the additional student body. In the event that a nomination is received from a student for more than one (1) student body, the Returning Officer must notify the candidate and either obtain their notice of withdrawal(s) or reject their nomination as required.

### 10.11 Notice of Candidates

- (a) The Returning Officer must, as soon as practicable after the close of nominations for an election, cause a notice of the names of the persons whose nominations have been accepted, to be posted on relevant publications and websites of Arc and in such other places as the Governing Board may determine.
- (b) The notice must also include the polling dates, times and locations for the elections.
- (c) The Returning Officer must make a list (where possible) of the names on the relevant Roll of the Members of Arc with their category of Membership and controlling faculty as at the close of nominations, available for inspection during the period from the close of nominations to the close of ballot.

### 10.12 Dealing with Nominations

  - (i) The Returning Officer must re-open nominations for a period of seven (7) days and follow the process outlined in Regulation 10.
  - (ii) If after seven (7) days there still remain insufficient valid nominations, the Board may with a majority vote at a Board Meeting co-opt a person(s) who would have qualified to nominate as a candidate to fill the position(s) available.

### 10.13 Form of Ballot

A ballot for election must be a secret ballot held in accordance with these Regulations. There shall be separate ballots for the SRC, the PGC and any other external body.

### 10.14 Contents of Ballot Paper

With the exception of the election of external student body delegates:

- (a) For each ballot where there is only one candidate to be elected, each ballot paper must contain the names of the candidates in an order determined by the Returning Officer by conducting a draw as follows:
  - (i) The names of the candidates concerned are to be written on separate and similar slips of paper,
  - (ii) The slips are to be folded so as to prevent identification,
  - (iii) The slips are then to be mixed and drawn at random,
  - (iv) The candidates' names are to be listed in the order in which they are drawn.
- (b) If a candidate is a member of a ticket, all members of the ticket shall appear in the same horizontal row on a ballot paper.

- (c) All ballot papers for ballots where there is more than one candidate to be elected will be in a form which provides for above and below the line voting. The ballot papers must contain the names of the candidates in each Ticket in the order supplied by the Ticket. The Tickets will be shown on the ballot paper in an order determined by the Returning Officer by conducting a draw in the same manner as in (a) above. This draw will be done once and will apply to all such ballots within the particular election.
- (d) The ballot paper must be initialled by the Returning Officer or by an assistant Returning Officer or polling clerk appointed by the Returning Officer. A ballot paper stamped with a facsimile of the relevant initials is taken to be initialled in accordance with this subclause.

### 10.15 Method of Voting

Each voter is to mark a vote on the ballot paper by placing the figure “1” in the square opposite the name of the candidate to whom the voter desires to give first preference. A clear intention using a tick, cross or slash will also be accepted as a first preference vote, however no further preferences will be counted.

- (a) The voter may, but need not, place consecutive figures (commencing with the figure “2”) in the squares opposite the names of any of the remaining candidates so as to indicate, by numerical sequence, the order of the voter’s preference for them.
- (b) For postal voting the voter must return to the Returning Officer the ballot paper enclosed (without anything else) and sealed in the envelope marked “Ballot Paper”, which must be enclosed and sealed in the other envelope addressed to the Returning Officer, with the form of declaration as to identity and entitlement to vote duly completed.
- (c) For on-the-ground voting, voters may only be issued with ballot papers after their identity and eligibility to vote has been verified by the Returning Officer or an assistant Returning Officer or polling clerk appointed by the Returning Officer. The voter must return the ballot paper by placing it in the ballot box provided by the Returning Officer at the polling location.
- (d) All formal ballot papers received by the Returning Officer before the close of ballot must be counted in the ballot.
- (e) All ballot boxes and/ or envelopes received by the Returning Officer under this clause must remain unopened until the close of the ballot.

### 10.16 Informal Ballot Papers

- (a) A ballot paper is informal if it has on it any mark or writing that, in the opinion of the Returning Officer, would enable any person to identify the voter.
- (b) A ballot paper is informal if:
  - (i) The sole figure “1” (or a “mark” in a form described in clause 10.15) does not appear in the square opposite the name of one (1) candidate, or
  - (ii) The sole figure “1” (or a “mark” in a form described in clause 10.15) appears in more than one (1) square, or
  - (iii) In the opinion of the Returning Officer the voting intention is unclear.
- (c) Where there are multiple ballots on the one ballot paper, and the Above-the-line or Left-of-the-line portion is common to all ballots, formality is to be determined by considering each ballot separately in conjunction with the common Above-the-line marking. In the event that a voter has voted formally both above and below the line in any particular ballot, the Below-the-line will take preference. Formality for Below-the-line votes is to be considered separately for each position.

### 10.17 Procedure on Close of Ballot

- (a) As soon as practicable after the close of ballot, the Returning Officer must, in the presence of those of the scrutineers that choose to be present:

- (i) Open the ballot boxes and/ or envelopes addressed to the Returning Officer and received before the close of ballot,
- (ii) For postal voting, if the declaration of identity and entitlement to vote is duly signed by a qualified voter, place the unopened envelope containing the ballot paper with other similar envelopes;
- (iii) For postal voting, open the envelopes referred to in Section (ii) and take out the ballot papers; and
- (iv) Count the votes, and ascertain the result of the ballot, in accordance with these Regulations.

### 10.18 Electoral tickets

- (a) A group of candidates for SRC or PGC positions may register themselves as members of an electoral ticket for the purpose of an election. All tickets must be separate.
- (b) The group must appoint a “contact person” who must be an Arc Member but not necessarily a candidate. The contact person shall be the spokesperson of the electoral ticket.
- (c) No candidate shall be eligible to be registered as a member of more than one (1) electoral ticket.
- (d) The Returning Officer shall not allow any name to be registered or for any election material to be used in the election that is sexist, homophobic, racist or otherwise offensive in such a manner that the Returning Officer believes that it would discriminate against, or be offensive to members of the university community.
- (e) No ticket name shall incorporate the name of Arc, an Arc Department or major Arc activity, e.g. ‘Foundation Day’.
- (f) No ticket name shall breach any copyright or trademark legislation.
- (g) The name of the ticket shall be no longer than five (5) words.
- (h) Applications for registration of an electoral ticket shall be made to the Returning Officer in a form approved by the Board no later than 48 hours after the close of nominations and shall include:
  - (i) The name of the electoral ticket and any abbreviation thereof;
  - (ii) A list of names and signatures of candidates who are members of the electoral ticket;
  - (iii) A statement of seniority of candidates for each position where there is more than one (1) to be elected;
- (i) An application for registration of an electoral ticket may include the logo to be used by the electoral ticket.
- (j) No candidate or group of candidates shall use the logo or name of another electoral ticket, which has been duly registered.
- (k) No candidate or group of candidates shall use a logo that breaches any copyright or trademark legislation.
- (l) In the case of competing claims to the same electoral ticket name, the Returning Officer shall decide which team, if any, may use that name. The time at which applications for the name were made shall not be used as a sole determinant, although it may be included as an element in the exercise of this discretion.
- (m) To establish a claim to a name for the purposes of registration written permission of the “contact person” who last used the name must be given in writing unless the name was last used in greater than three (3) years prior to the elections.
- (n) All campaign material produced by a ticket must display the full name of the ticket contact person.

- (o) Should an electoral ticket be found to have less than two (2) candidates after the validity of nominations is determined, then the remaining candidates, if any, shall be placed on the ballot as ungrouped candidates.

### 10.19 Election to fill one position only

If a ballot has been held for the purpose of filling one (1) position, the result of the ballot must be determined in accordance with this section.

- (a) Informal ballot papers to be rejected
  - (i) The Returning Officer must reject any informal ballot papers and count the formal ballot papers.
  - (ii) A reference in any other clause of this section to a ballot paper is taken to be a reference to a formal ballot paper, and
  - (iii) A reference to a vote is taken to be a reference to a vote in a formal ballot paper.
- (b) Candidate with absolute majority of votes elected
  - (i) The Returning Officer must count the number of first preference votes for each candidate.
  - (ii) The Returning Officer must declare elected the candidate who has received the largest number of first preference votes, if that number constitutes an absolute majority of votes.
- (c) Procedure if no candidate has absolute majority of votes
  - (i) If no candidate has received an absolute majority of first preference votes, the candidate who has received the fewest first preference votes must be excluded and each of the ballot papers counted to that candidate must be counted to the continuing candidate next in order of the voters' preference.
  - (ii) The Returning Officer must declare elected any candidate who, on completion of the count under subclause (i), has received an absolute majority of votes.
  - (iii) If two (2) or more candidates have an equal number of votes at the time that it is necessary to exclude one (1) of them, the candidate who had the lesser votes at the previous stage(s) of counting, where candidates had differing numbers of votes shall be excluded. If, using this method, the Returning Officer is unable to exclude a candidate, the candidate to be excluded is to be determined as follows:
    - (A) The names of the candidates concerned must be written on separate and similar slips of paper;
    - (B) The slips must be folded so as to prevent identification and mixed and drawn at random;
    - (C) The candidate whose name is first drawn must be excluded;
    - (D) Process to continue until candidate elected.
- (d) The process of excluding the candidate who has the fewest first preference votes and counting each of the ballot papers counted to that candidate to the continuing candidate next in order of the voters' preference must be continued until:
  - (i) One (1) continuing candidate has an absolute majority of votes, in which case the Returning Officer must declare that candidate elected; or
  - (ii) There are only two (2) continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes must be declared elected, even if the number of votes is below an absolute majority of votes; or
  - (iii) There are only two (2) continuing candidates who have an equal number of votes, in which case the candidate who had the more votes at the previous stage(s) of counting, where candidates had differing numbers of votes, shall be declared elected. If, using this method, the continuing

candidates still have an equal number of votes, the candidate elected must be determined as follows:

- (A) The names of the candidates concerned must be written on separate and similar slips of paper;
  - (B) The slips must be folded so as to prevent identification and mixed and drawn at random;
  - (C) The candidate whose name is first drawn is elected.
- (e) The exception to the above is the PGC elections for Committee Liaison positions, in circumstances where Affirmative Action is required to be invoked. There must be at least 2 women on the PGC. Where there have not been at least 2 women elected to the positions of President, General Secretary, Vice Presidents and Campus officers, Affirmative Action is invoked, and the following procedures will apply:
- (i) After counting all the Liaison positions, but before declaring any candidate elected
    - (A) Where the mix of successful candidates across the Liaison positions results in sufficient women overall to satisfy the Affirmative Action requirements, successful candidates are declared elected as normal.
    - (B) Where it does not occur naturally, any woman successful in a Committee Liaison ballot is declared elected, and the following procedure is to be followed for the remaining Liaison positions:
      - I. If there are sufficient unelected women candidates available across the Liaison positions, the most successful (as determined below clause 10.19e,ii) woman or women who was an unsuccessful candidate is to be declared elected, and if required the second most successful unsuccessful woman candidates is also declared elected. The other Liaison positions are then declared elected as normal, or
      - II. If there are not sufficient women candidates available, the most successful woman (as determined below) who was an unsuccessful candidate is to be declared elected, and
      - III. Of the other Liaison positions, the 2 most successful male candidates are declared elected, and if more vacancies than required then remain, the third most successful male candidate is declared elected, and
      - IV. Any resultant vacancies are to be filled by following the procedures in 9.5(b).
  - (ii) To determine the successful candidates:
    - (A) To determine the most successful unsuccessful female candidate: After a full distribution of preferences has been done to the point where only 2 candidates remain, the relative success of a candidate is the % of votes they obtained, calculated by dividing the number of votes they had at the point they were excluded, or retain if they were not excluded, by the number of formal votes in that particular ballot, and multiplying the result by 100. If the following results in 2 or more candidates being equally successful, the result is determined by drawing lots
    - (B) To determine the most successful male candidate: If the following results in 2 or more candidates being equally successful, the result is determined by drawing lots.
    - (C) A candidate in an uncontested ballot is considered to have 100% of the formal votes.
    - (D) In a contested ballot, after a full distribution of preferences has been done to the point where only 2 candidates remain, the relative success of a candidate is the % of votes they obtained calculated by dividing the number of votes they have by the number of formal votes in that particular ballot, and multiplying the result by 100.

## 10.20 Election to fill more than one position

- (a) If a ballot has been held for the purpose of filling more than one (1) position, the result of the ballot must be determined in accordance with this section.
- (b) Informal ballot papers to be rejected
  - (i) The Returning Officer must reject any informal ballot papers;
  - (ii) A reference in any other clause of this section to a ballot paper is taken to be a reference to a formal ballot paper, and a reference to a vote is taken to be a reference to a vote in a formal ballot paper;
  - (iii) Candidates deemed ineligible by these Regulations, are to first to be dealt with by being excluded after the Quota has been determined but before any surplus distributions.
- (c) Determination of quota
  - (i) The Returning Officer must determine a fixed quota which is constant for the entire count by;
    - (A) Counting the number of first preference votes;
    - (B) Dividing the total number of those votes by one (1) more than the number of candidates required to be elected; and
    - (C) Increasing the quotient so obtained (disregarding any remainder) by one (1).
- (d) Candidate who meets or exceeds quota elected
  - (i) The first preference votes for each candidate must be counted;
  - (ii) The Returning Officer must declare elected each candidate who has received a number of first preference votes that is equal to or greater than the quota.
- (e) Procedure if further position to be filled
  - (i) If any further position remains to be filled, the surplus votes of each elected candidate, in order of size commencing with the largest, are to be transferred to the continuing candidates as follows:
    - (A) The transfer value of the surplus votes must be ascertained by dividing the number of surplus votes of the elected candidate by the total number of votes received by that candidate less the number of ballots which do not indicate a further preference;
    - (B) The total number of ballot papers of the elected candidate showing the next available preference for a particular continuing candidate must be multiplied by the transfer value;
    - (C) The number so obtained (to at least four (4) decimal places, or two (2) decimal places in the case of manual calculation) must be added to the number of first preference votes of the particular continuing candidate;
    - (D) All those ballot papers must be transferred to the particular continuing candidate.
  - (ii) The Returning Officer must declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.
- (f) Procedure if insufficient candidates have reached quota
  - (i) If, after the counting of first preference votes or the transfer of surplus votes (if any) of elected candidates, no candidate has (or fewer than the number of candidates required to be elected have) received a number of votes equal to or greater than the quota, the candidate who has the fewest total allocated votes – being the sum of first preference votes plus the value of transferred votes – must be excluded and the count is to proceed in accordance with this clause.

- (ii) All ballot papers showing a first preference vote for an excluded candidate and the next available preference for a particular continuing candidate must be transferred, each ballot paper at a transfer value of 1, to the particular continuing candidate and added to the number of votes of the particular continuing candidate.
- (iii) Any ballot papers obtained by an excluded candidate by means of a transfer to that candidate must be transferred (beginning with the ballot papers received by that candidate at the highest transfer value and ending with the ballot papers received at the lowest transfer value) as follows:
  - (A) The total number of ballot papers received by the excluded candidate at a particular transfer value from a particular candidate and showing the next available preference for a particular continuing candidate must be multiplied by that transfer value,
  - (B) The number so obtained (to two (2) decimal places) must be added to the number of votes of the particular continuing candidate,
  - (C) All those ballot papers must be transferred to the particular continuing candidate.
- (g) The Returning Officer must declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.
  - (i) However, the surplus votes of the candidate so elected must not be transferred until all the ballot papers of the excluded candidate have been transferred.
- (h) No transfer of surplus votes or ballot papers to continuing candidate who reaches or exceeds quota. If a continuing candidate has received a number of votes equal to or greater than the quota on the completion of the transfer of:
  - (i) The surplus votes and ballot papers of an elected candidate; or
  - (ii) The ballot papers of an excluded candidate,
  - (iii) No surplus votes or ballot papers of any other candidate are to be transferred to the candidate so elected.
- (i) Procedures to continue until positions filled
  - (i) The procedure of transferring to the continuing candidates the surplus votes of elected candidates, and the procedure of excluding the candidates with the fewest first preference votes, must continue in accordance with this section until:
    - (ii) The number of continuing candidates is equal to the number of positions remaining to be filled, in which case the Returning Officer must declare those candidates elected, or
    - (iii) There is only one (1) position remaining to be filled and only two (2) continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes must be declared elected, even if the number of votes is below the quota, or
    - (iv) There is only one (1) position remaining to be filled and only two (2) continuing candidates who have an equal number of votes, in which case the candidate who had the more votes at the previous stage(s) of counting, where candidates had differing numbers of votes, must be declared elected. If, using this method, the continuing candidates still have an equal number of votes, the candidate elected must be determined as follows:
      - (A) The names of the candidates concerned must be written on separate and similar slips of paper,
      - (B) The slips must be folded so as to prevent identification and mixed and drawn at random,
      - (C) The candidate whose name is first drawn is elected.
- (j) The exception to the above is in elections where there is a requirement to elect a minimum number of women and/or gender diverse students, such as the Board and Councillor positions in PGC and SRC:

- (i) At the conclusion of the vote count, the Returning Officer must declare elected the highest ranking candidate, then continue electing candidates in order of ranking until the required number of candidates have been elected, skipping candidates if necessary to ensure the required number of women and/or gender diverse students are elected.

### 10.21 Elections to external bodies

Elections to external bodies shall be conducted in accordance with these Regulations, except where there is a contradiction with the requirements of that external body. In such a circumstance the election, only as far as necessary, is conducted in accordance with that external body's requirements.

### 10.22 Deferment

- (a) Deferred students may vote in Arc elections, provided all other requirements for voting are met.
- (b) If a deferred candidate nominates for election to any position, the returning officer is only to accept their nomination provided that the student declares that it is their intention not to be deferred at the commencement of their next trimester after the date they are elected.
- (c) Should any student wish to defer after they are elected to any position, they must consult the head of their council or student body (if applicable), then gain the consent of the Chair of the Board and the CEO.
- (d) This clause also applies to students who are on program leave.

- (b) If nominating for more than one position on a student body, candidates are required to indicate to the returning officer their order of preference for those positions. Should a student be the successful candidate in more than one ballot, they shall be declared elected to the position of their highest preference in which they were successful.
- (c) In the case that cause 10.23 (b) creates a procedural conflict in the count or declaration of any ballot, the ballots shall be counted and declared in order listed below, to the extent necessary to resolve the conflict.
