

BADGE ARTWORK SIZING SPECIFICATIONS

PLEASE READ INSTRUCTIONS CAREFULLY

Diagram not to scale.
Do not measure this diagram.

- 1. Create an outer circle at the specified size for your chosen badge size (see below).**

This circle is larger than the completed badge size and wraps around the edges of the badge. Make sure your background colour extends all the way to this edge.

- 2. Create an inner circle at the specified size for your chosen badge size (see below).**

This circle is used as a guide for placing your design on the badge front. Any image or text placed outside this line will begin to wrap around the edge of the badge.

TO MAKE A 35MM (SMALL) BADGE

1. Create outer circle at **46mm** (this circle must be printed)
2. Create inner circle at **31mm** (remember to remove this circle before printing)

TO MAKE A 57MM (LARGE) BADGE

1. Create outer circle at **69mm** (this circle must be printed)
2. Create inner circle at **53mm** (remember to remove this circle before printing)
