

Hi, I'm Kyra, a 3rd year Law/Science student from Malaysia with a passion for social justice. I'm running for Arc Board because I believe students should be central in the important decision-making processes that affect us.

I have formed lifelong friendships with local, rural & international students as the 2019 Treasurer of UNSW Hall. This experience taught me camaraderie, cooperation & the hard work that goes into forging a home away from home. My involvement in a 200 strong, tightknit community has equipped me with the experience to be a good sounding board for the concerns of all students, including underrepresented groups.

My focus will be to solidify & expand Arc's mental health initiatives to be responsive to the ever-changing field of student wellbeing. If elected, I will continue to fight for diversity, equity & inclusion so all students have the opportunity to forge a memorable university experience like I have.
