WE’RE BACK

GIG PACK

UNSWROUNDHOUSE.COM
Our recent redevelopment has been crafted to maximise the spectator experience at your event, offering a cohesive entertainment precinct featuring a main concert hall, directly connected to a full service bar and food outlet, flowing out to a landscaped beer garden.

The Mezzanine level offers a second dedicated bar, a balcony with amazing sightlines over the crowd and main stage, with options around VIP ticketing and upsell packaging to tailor your offering to guests.

The production quality for concerts has been enhanced with a brand new flown d&b line array PA and accompanying Digico SD12 desk, providing the audio quality that the d&b V Series is renowned for, along with substantially better sightlines for punters.

Roundhouse is scalable and can be configured to your needs, from a main room only gig, expanding to the Mezzanine level, or using the full venue capacity of 2,200 in all its glory.
