

# JENNIFER LIN

Hi, my name is Jennifer and I am a second-year student studying Actuarial Studies! I am excited to be running for Arc Board commencing in June 2021! Over the past year, I have been involved with student societies and more broadly with campus life at UNSW.

I have worked in the student advocacy space before during my time in high school, so despite my young age, I feel as if there are many similarities between my past work and the role I am hoping to fill on the Board. Additionally, I feel as if I have good connections with the students from my faculty and the broader societies I am in at UNSW and this means I can bring different student experiences and concerns to the board. In short, I hope to bring a great and virtuous effect on the Board this year. Vote me!
